Johnson County Department of Health and Environment

This includes all cases that are investigated by Disease Containment (not a case, suspect, probable and confirmed). As of January 1, 2013, the Kansas Department of Health and Environment recommends only positive pertussis cases be reported.

This does not list diseases for which no case has been reported.

Disease Category	Disease Name	January 2014	February 2014	March 2014	April 2014	May 2014	June 2014	July 2014	August 2014	September 2014	October 2014	November 2014	December 2014	Total YTD
