V. DISCUSSION ITEMS

A. Consider accepting a Kansas Department of Transportation (KDOT) Grant of $1,000,000 towards the Unilever expansion.

Mr. McKee briefed the board on the KDOT Grant, originally for two projects, to be utilized towards the Unilever expansion and rail improvements. Previously, former Executive Director, Mr. Metcalfe, had offered $200,000 Airport Commission funds to contribute to the rail improvements with a take or pay agreement. Unilever is anticipating that they will utilize 1400 rail cars per year and the take or pay agreement will offset the $200,000 of Airport Commission contributed funds. In addition, they will be purchasing 50,000,000 gallons of additional water per year. Mr. Wittenborn asked if there would be any liability issues for the Airport Commission. Mr. McKee replied that he and Ms. Dunham, airport attorney, are working on the grant details and process. Ms. Dunham responded that the Airport Commission would not be held liable. Mr. Wittenborn asked what happens to the hard assets in place, including the rail, if Unilever decides to vacate. Ms. Dunham stated that the leases generally provide that if the lease is terminated, the improvements, belong to the Airport Commission.

MOVED BY MR. WEBB AND SECONDED BY MR. BROCKHAUS TO ACCEPT A KANSAS DEPARTMENT OF TRANSPORTATION (KDOT) GRANT OF $1,000,000 TOWARDS THE UNILEVER EXPANSION AS PRESENTED. APPROVED (4-0).

B. Discuss updating the New Century AirCenter’s Airport Layout Drawing and Narrative easements.

Mr. McKee commented there have been numerous development inquiries for the southeast quadrant of the airport at New Century AirCenter. Right now, if someone came through and wanted to make a deal it typically would take twelve to fourteen months to go through the FAA process and it would essentially kill any deal. To utilize the property, we would need to change the zoning from aviation to commercial use. This would be a non-AIP eligible project and would need to come from the airport funds; about $85,000 to $90,000. The intent is not losing any abilities of the property it is to take advantage of the property and focusing on new venue of opportunities; industrialization of the area. We do not have the operations to support an additional runway as shown in the current Master Plan. The previous study that was done supports that and the FAA concurs.

Mr. Wittenborn asked how this would affect the Master Plan. Mr. Hadel, Burns and McDonnell, stated that it would show on the FAA approved drawings, what all the changes are in the written narrative and drawings, and the proposed modifications would be submitted to the Airport Commission and Board of County Commissioners for approval. Mr. Weisenburger asked what exactly will be removed from the Master Plan that will allow the FAA to state it is no longer aviation related. Mr. McKee replied that the main portion is the parallel runway and
it would open up property east of New Century Air Service. Mr. Hadel added it would be consistent with the original plan to build hangars or t-hangars. Mr. Wittenborn asked if the $85,000 would include updating our Master Plan. Mr. Hadel stated that it would not, just a component of the plan. Mr. Weisenburger asked Mr. McKee if there was something significant driving this change. Mr. McKee replied there are a couple of developers that have approached him regarding significantly specific projects. In addition, this is one of the steps that need to be addressed if we want to open up the property for commercial use. Mr. Webb commented the reality would be not having a runway in the master plan now that there is a warehouse off of the north-end of the runway and a residential subdivision. The Intermodal has changed this part of the world also. Mr. Wittenborn asked if there were any other parcels, besides the southeast area, at the airport. Mr. Hadel replied this is the opportunity to consider everything happening at the airport and to explore everything in that vicinity.

After a lengthy discussion, it was determined to add to next month’s Airport Commission meeting as an agenda item for full Airport Commission board participation.

C. Consider delegating the Executive Director authority to sign non-exclusive utility easements.

MOVED BY MR. BROCKHAUS AND SECONDED BY MR. WEBB TO APPROVE DELEGATING THE EXECUTIVE DIRECTOR AUTHORITY TO SIGN NON-EXCLUSIVE UTILITY EASEMENTS AS PRESENTED. APPROVED (4-0).

C. Discuss updating of the New Century AirCenter’s Airport Layout Drawing and Narrative.

Mr. McKee presented to the board the possibility of developing the land to the southeast of the airport, south of 4/22 and east of 18/36. Potential developers have inquired about the land. He stated that he and Mr. Hadel, Burns and McDonnell, spoke with Jeff Deitering of the FAA, asking what would need to be done to release the land from aviation to commercial use. Mr. Deitering identified that an ALD Narrative update would be required. A scope was created, submitted to the FAA with no additional comments. Mr. Hadel stated the cost would be around $86,000, and survey-work would be an additional $12,000. Mr. Metcalfe, former Airport Commission Executive Director, gave background information on the history of the smaller runway in the Master Plan. Because general aviation is shrinking and commercial aviation has changed dramatically leaving the runway in the Master Plan would never be justified.

After a lengthy discussion, the board decided it was in the Airport Commission’s best interest to update the New Century AirCenter’s Airport Layout Drawing and Narrative.
MOVED BY MR. WITTENBORN AND SECONDED BY MR. WEBB TO APPROVE UPDATING OF THE NEW CENTURY AIRCENTER’S AIRPORT LAYOUT DRAWING AND NARRATIVE NOT TO EXCEED MAXIMUM EXPENDITURES OF $86,000 AS PRESENTED. APPROVED (6-0).

B. Consider increasing rail rates per rail car weigh, move and respot from $75 to $98 and per rail car storage from $20 to $26 for rail car customers.

Mr. McKee briefed the board on increasing the rail rates and stated that the majority of revenue comes from rail cars that are actually delivered to the tenant. Mr. Weisenburger asked how many rail cars are currently being delivered. Mr. McKee responded there are currently around 1400 rail cars per year. With the Unilever expansion they are estimating an additional 1400 per year. Mr. Harris asked how the tenants would react and if there was any other data that could be related. Mr. Wittenborn asked how many rail cars are being stored and for what length of time. Mr. McKee replied that it varies and originally the storage fee was to discourage the tenants from leaving rail cars out. Over the years it has become a revenue stream. Mr. Riederer stated the fee for having rail cars directly available to the tenant’s facility is well worth the cost of a small rate increase.

MOVED BY MR. HARRIS AND SECONDED BY MR. WEBB TO APPROVE INCREASING RAIL RATES PER RAIL CAR WEIGH, MOVE AND RESPOT FROM $75 TO $98 AND PER RAIL CAR STORAGE FROM $20 TO $26, EFFECTIVE JUNE 1, 2014 AS PRESENTED. APPROVED (6-0).

IV. EXECUTIVE SUMMARY

A. Review staff reports:

Ms. Cooper commented on a few opportunities, at low or no cost, to the Airport Commission.
The National Weather Service (NWS) is in the final stages of developing a terminal area forecast for New Century AirCenter. Currently, users in this area have to use Topeka or Kansas City forecasting. This should be ready late summer or early fall of this year.

From the FAA side we have formally requested a GPS/RNAV instrument approach on Runway 4/22 at IXD (New Century AirCenter).

On May 5, 2014, the Airport Commission received an anonymous phone call with a specific threat to aircraft. JCAC staff immediately closed both airports to all flight operations and contacted Johnson County Sheriff’s Office to respond to the Executive Airport. With cooperation from the Sheriff’s office, City of Olathe Police and Louisburg Police departments it was determined that the threat was not valid and operations at both airports were resumed within 45 minutes. This was the first opportunity we had a chance to work with the FBI. The FBI does not take these threats lightly and currently the FBI’s Terrorism Task Force is investigating the caller ID that was documented by JCAC staff.

D. Consider recommending to the Board of County Commissioners a 10-year, 50% abatement from ad valorem real estate taxes for improvements to the Unilever food manufacturing facility.

Mr. Colin briefed the board on the Unilever $152,500,000 expansion. 2012, Lee Metcalfe, former Executive Director of the Airport Commission, and Tom Riederer, president of the Southwest Johnson County Economic Development Corporation, worked to create an economic development incentive policy; which was approved. In the policy it outlined what the thresholds were for abatements and schedules. The top of the schedule went to seven years; however, due to the size of the Unilever project Mr. Metcalfe thought there should be consideration to increase the schedule to ten years. Mr. Harris asked if this would be new tax dollars generated. Mr. Colin replied, the existing building would not be impacted, and the new addition would create a minimum of one hundred new jobs, a zero-landfill building, newly created taxes during the abatement would be approximately $488,730, after the abatement it would be approximately $977,460 per year and that is on top of what they are already paying.

MOVED BY MR. WITTENBORN AND SECONDED BY MR. HARRIS TO RECOMMEND TO THE BOARD OF COUNTY COMMISSIONERS A 10-YEAR, 50% ABATEMENT FROM AD VALOREM REAL ESTATE TAXES FOR IMPROVEMENTS TO THE UNILEVER FOOD MANUFACTURING FACILITY COMMENCING AT THE COMPLETION OF THE EXPANSION PROJECT AS PRESENTED. APPROVED (6-0).

E. Discuss Business Park renovation

Mr. Colin updated the board on the progress of recent renovations at the business park. The army wing will be replacing their Chinooks and have offered one of them to the Airport Commission as a static display. One of the aircraft would be brought up to be displayed in the front property of the Administration building along with displaying the Chinook. Chairman Moore asked what would be the cost associated with moving the displays. Mr. McKee responded it would approximately be around $2,000. All agreed to move forward with this project and Chairman Moore also indicated that the current aircraft at the aviation park need to be repainted.

Mr. McKee commented that the administration building is in dire need of rehabilitation and offered several examples. In addition, he would like to modify the building by opening up the building for mail customers to gain access on the weekends as well as utilizing the building as a storm shelter to the businesses in the area. Mr. Harris asked what the costs associated with the project would be and he would like to see the design work and preliminary plan. Mr. Harris asked if there might be an opportunity for Kansas historic tax credits to assist with the project. The board instructed Mr. McKee to move forward with the project.

F. Report of the President, Southwest Johnson County EDC

II. **REPORT OF THE CHAIRMAN**

A. Tim Green – 5 Year Anniversary

Chairman Moore congratulated Tim Green and expressed the board’s appreciation for his five years of dedicated service to the Airport Commission.

IV. **EXECUTIVE SUMMARY**

A. Review staff reports:

Ms. Cooper stated that Paul Fiscus had recently been hired as facilities manager. Paul comes with twenty-plus years of golf course experience and a bachelor’s degree in horticulture.

Mr. Harris asked about the department’s purchasing cards, how many employees have them, what are the limits, procedures and how are they approved. Mr. McKee replied that before an employee receives a purchasing card they are required to take a training class and pass a test. Then, all purchases go through several process steps that include approval from the immediate supervisor, department supervisor, final approval from Executive Director, a reconciliation
process, and finally submitted to the Accounting Assistant for record keeping. Most of the limits are set at $500-$1,000 per transaction and $2,000-$3,000 per month with Deputy Director and Executive Director’s at a higher limit. Mr. Brockhaus asked if it was a reward cards and if not, why not. Mr. McKee responded the purchasing cards were not reward cards. Commissioner Ashcraft stated that the cards are usually constructed to include services that allow supervisor’s approval and because of that added feature they are generally not reward cards. Ms. Dunham added that it is a county-wide service that is bid-out annually and in addition, the Board of County Commissioners have passed a number of policies and procedures for County employee’s usage of purchasing cards.

Ms. Cooper commented on recent changes in grant funding by the FAA. Ms. Cooper stated the FAA approved grant funding for the reconstruction of the taxi lane project at Executive Airport was originally designed to fund in front of the T-hangars and all the way to the doors is now ineligible for funding. Based upon the 2013 draft, the guidelines define clearly that anything between the hangar and twenty-seven feet within the doors, for large-sized aircraft, is no longer eligible for funding. Because of the FAA’s recent changes, staff is now looking at $275,000 to $325,000 of funds from the Airport Commission reserves as part of the next phase of construction at Executive Airport (OJC). If the board approves, the Kansas Department of Transportation has agreed for staff to use their grant of $230,000 at OJC and use that as our match for projects north of Air Associates and the west T-hangars. Mr. Hadel, Burns & McDonnell Engineering, commented that the original KDOT grant’s language was written for project work in the northeast quadrant of the airport (OJC) and has allowed us, with approval of the Airport Commission board, to advance those funds to this pending project for the area from the face of the hangars; twenty-seven feet out. Mr. McKee added that it would free up funds to apply to the west-side hangars in exchange to complete the project with some additional funds of $275,000 to $325,000. A decision will need to be made quickly as it is out for bid and will be awarded on July 2nd. Ms. Cooper stated that staff will need to submit the letter to the FAA by July 11th or we will lose funding and the pavement will not hold up for another winter. Mr. Harris asked how much the total project is and what would come out of the Airport Commission’s funds. Mr. Hadel responded that the total project is $3,100,000 and Ms. Cooper replied the Airport Commission’s cost would be roughly $690,000 to $750,000. Mr. Harris asked how much is in reserves and Mr. McKee responded there is over $6,000,000. Ms. Cooper added that reserves increased from $5,700,000 to $6,100,000 in 2013.

MOVED BY MR. HARRIS AND SECONDED BY MR. WEISENBURGER TO APPROVE THE ADDITIONAL AMOUNT NOT TO EXCEED ADDITIONAL MATCH OF $325,000 FOR PAVEMENT IMPROVEMENTS AND $150,000 FOR PAVEMENT IMPROVEMENTS INSIDE THE HANGARS AS PRESENTED. APPROVED (4-0).

MOVED BY MR. WEISENBURGER AND SECONDED BY MR. HARRIS TO APPROVE A ONE-TIME PAYMENT OF $10,000 TO THE SOUTHWEST JOHNSON COUNTY EDC AS PRESENTED. APPROVED (4-0).

B. Discuss rehabilitation of Building #2.

Mr. McKee briefed the board on the increase of requests for lease of office space. Building #2 has been around since 1941, and could be utilized to temporarily relocate office space for staff while rehabilitation is ongoing at the administration offices. After that, it could be used as revenue source and be around for another 70 years. The major expense would be adding a parking lot at the north end; which would come off of 159th street. It needs sheetrock, carpeting, basic electrical work, and the air conditioning system is in good working order. However, if it goes too much longer it will need to be demolished. For a fully-functioning office space the cost estimate would be around $100,000 to $150,000. Staff was directed to present specifications and cost analysis at the next Airport Commission board meeting.

C. Report of the President, Southwest Johnson County EDC.

Mr. Riederer updated the board on current projects and proposals for the Southwest Johnson County EDC.

VI. BUSINESS FROM THE FLOOR
