Johnson County Recovery Plan

PREPARED BY THE JOHNSON COUNTY RECOVERY PLANNING TASK FORCE

TASK FORCE MEMBERS

Johnson County Board of County Commissioners representatives
Chairman Ed Eilert
Vice Chairman Mike Brown
Commissioner Janeé Hanzlick

Johnson County Government staff
Penny Postoak Ferguson, County Manager
Dr. Sanmi Areola, Director, Public Health and Environment
Dan Robeson, Deputy Director, Emergency Management and Communications

Economists
Frank Lenk, Director of Research Services, Mid-America Regional Council

Mayor’s Council Representative
Eric Mikkelson, Mayor, City of Prairie Village

City Manager representative
Becci Yocham, City Manager, City of Lenexa

Non-profit/Community Organization
Julie Brewer, Executive Director, United Community Services of Johnson County

Hospital Executive
Stan Holm, President & CEO, Olathe Health

Public Safety
Troy Rettig, Police Chief, City of Leawood/Johnson County Police Chiefs and Sheriff Association

Small Business
Scott Anderson, Restaurant Owner/Development Attorney

Chamber of Commerce
Tracy Osborne Oltjen, President & CEO, Overland Park Chamber of Commerce
Introduction

In response to the spread of the novel coronavirus COVID-19, both Johnson County and Governor Laura Kelly issued stay-at-home orders as a public health mitigation strategy to slow the spread virus.

On April 20, 2020 the Board of County Commissioners established a Johnson County Recovery Planning Task Force to make recommendations on how to responsibly remove the stay-at-home order while continuing to protect the community’s health and safety. The primary goal of the task force is to recommend a phased approach to the reopening of businesses and gathering locations.

There are a few key points that will affect the recommendations moving forward:

1. There is a lot about COVID-19 that we do not know. We do not know whether ambient temperature has an impact. We do not know if this will end up being seasonal. We do not know if an infection proffers some measure of immunity and if so, how much. We also do not know enough about how it spreads. This plan is based on the best information that is currently available and may change as our knowledge improves.

2. Once the orders are lifted, especially when social distancing and gathering size requirements are relaxed, there will likely be an increase of some magnitude in COVID-19 spread. How the orders are lifted is a key determinant.

3. Until a vaccine or other therapeutic interventions become available, some level of social distancing will be required.

4. Residents returning to work and travelers coming to Johnson County will cause new introductions of the virus in our county.

5. Before the orders are lifted, the public health system needs to have a robust surveillance system in place to enhance our capacity to detect outbreaks. This will include additional staffing and training, adequate sample collection instruments, laboratory testing resources, sentinel sites and frequent drive-through testing. Mitigation measures will need to be re-introduced if widespread transmission is detected.

6. Communication plans need to be developed to inform and educate the community, and to increase confidence and belief that, with modifications in place, it is ok to return to work, play and worship.

Universal Precautions for All Phases

These universal precautions are intended to provide guidance throughout all recovery phases. We anticipate modifying and adding to these tasks as we learn more about COVID-19 and the best ways to stop the spread.

1. Continue to encourage residents to wear barrier masks whenever they are out in the community. A barrier mask is one that is not approved for healthcare protection, such as a cloth mask. Barrier masks should be disposed of after use or laundered daily if using cloth. Residents should also continue frequent hand washing, refrain from touching their faces and continue a minimum of 6-foot physical distancing practices.

2. Continue to encourage residents to limit close physical interactions.
3. Continue to encourage residents not to embark on unnecessary travel and avoid travel to areas with high transmission of the coronavirus. Quarantine requirements should remain in place for those that travel to high transmission areas until federal, state and local guidance changes.

4. Continue to restrict visits to long-term care facilities within the county.

5. Continue to encourage high-risk residents, e.g. those with immune disorders and the elderly, to continue to stay at home as much as possible.

6. Consider the need to protect our vulnerable populations as the recovery plan is implemented.

7. Businesses of different sizes will be allowed to open only when they can maintain physical distancing measures. Businesses will be required to encourage telecommuting, utilize shift control and to continue to do some of what they are currently doing to ensure physical distancing.

8. Businesses shall execute their reopening plans in phases according to best practice industry guidelines, rather than opening at full capacity. Some may only be able to operate at less than 100% capacity to meet the physical distancing measures.

9. Businesses should consider resources available to them to provide barrier masks and other PPE (in accordance with their industry guidelines) to employees in determining when to open and the level of operation. The county expects processes to be optimized to ensure that employees and customers are protected.

10. It is also best practice to encourage employees to monitor their symptoms and stay at home if they are sick.

Phased Approach to Recovery

Opening the economy and rolling back some of the measures in place is expected to occur in phases with the overarching consideration being to prevent the spread of COVID-19 and protect the health of the public.

We must understand that this will be on a ‘trial and error’ basis. There will be an increased risk of exposure to our residents and thus, increased risk of serious consequences and overwhelming of our hospital capacity. We must understand that we may need to again implement the same or even stricter measures if we find evidence of widespread transmission.

The county, businesses and establishments will continue to work to ensure that PPE and other resources are available.

The Johnson County Department of Health and Environment will continue to review community data on a rolling 14-day cycle. After initiating each phase, the data reviewed will be used by the department to determine when the gating criteria are met.

This recovery plan is intended to address “non-essential” businesses under the current stay-at-home order issued by Governor Kelly. State of Kansas Executive Order 20-16 (Appendix A) identified “essential” businesses that are already allowed to operate. “Essential” businesses shall continue to observe the universal precautions and their best practice industry guidelines to protect the health of our residents.
Duration of phases
Proceeding to the next phase will depend on meeting the applicable gating criteria, as defined below, including the impacts on the spread of the virus, impacts on our vulnerable populations, and our hospital capacities. Specifically, these must occur before proceeding to the next phase:

1. Downward trajectory of documented cases within a 14-day period OR
2. Downward trajectory of positive tests as a percent of total tests within a 14-day period (flat or increasing volume of tests)

Given what we currently know about the virus, we will begin monitoring the impacts of roll back in each phase after 14 days.

Parameters and criteria for determining businesses that will be in each phase
The following factors will be used to determine where businesses fall in the four phases. An assessment of the COVID-19 transmission risk posed by business categories will be made qualitatively based on the following:

1. Risk of transmission in an establishment (staff and customers) that is representative of an industry group. The goal is to minimize close contacts for a prolonged period.
2. How modifiable the processes are in the business group to minimize interactions.
3. What other risk management and risk reduction strategies can be implemented.

Businesses in Phase One will be on the lower end of the risk assessment scale. In this plan, we use the term “business” broadly to include for profit, not for profit, governmental and non-governmental organizations.

Following the White House reopening plan, we should move forward to phased opening when we can satisfy the gating criteria:

SYMPTOMS:
   a. Downward trajectory of influenza-like illnesses (ILI) reported within a 14-day period, AND
   b. Downward trajectory of COVID-like syndromic cases reported within a 14-day period,

AND
CARES:
   a. Downward trajectory of documented cases within a 14-day period OR
   b. Downward trajectory of positive tests as a percent of total tests within a 14-day period (flat or increasing volume of tests),

AND
HOSPITALS:
   a. Treat all patients without crisis care,
   b. Robust testing program in place for at-risk healthcare workers, including (when ready) emerging antibody tests.
Johnson County Recovery Plan
PREPARED BY THE JOHNSON COUNTY RECOVERY PLANNING TASK FORCE

Phases

Current Phase
Continue until the numbers confirm that we have truly succeeded in our measures to flatten the curve.

Phase One
This initial category of businesses will be allowed to open when the gating criteria are met. This will include businesses and sectors that are considered to present low risk of COVID-19 transmission, do not include large group gatherings, have low risk of prolonged interactions, are adaptable and can put in place steps to reduce transmission. Residents will be encouraged to continue wearing masks and observing physical distancing.

Phase Two
The next group of businesses will be allowed to open when the gating criteria are met. This phase will allow additional types of businesses deemed to present moderate risks to operate. Large gatherings of people will continue to be restricted, masks will continue to be worn, and other physical distancing will continue.

Phase Three
The next group of businesses will be allowed to open when the gating criteria are met. This phase will allow additional types of businesses deemed to present high risks to open with guidelines. Large gatherings of people may still be restricted, masks may still be encouraged to be worn, and other physical distancing may still be required to continue.

Phase Four
All types of businesses will be allowed to open at full capacity when the gating criteria are met. This phase will most likely be associated with herd immunity achieved or availability of a vaccine and/or therapies for COVID-19.

Business groups that fall into each phase are categorized in the following table. We expect every establishment to utilize best practices in accordance with their industry guidelines and/or federal and state guidance as they open. Johnson County Department of Health and Environment will develop an Industry Guideline Resource page to assist businesses. However, we strongly encourage individual businesses and establishments to familiarize themselves with their best practice industry guidance so they can operate within the spirit, requirements and intent of this plan. This is an evolving situation and it is expected that new guidance documents will be developed, updated and released. Businesses are expected to follow the latest version of guidance documents in their respective sectors.

EXECUTIVE ORDER NO. 20-16

Establishing a statewide “stay home” order in conjunction with the Kansas Essential Function Framework for COVID-19 response efforts

WHEREAS, securing the health, safety, and economic well-being of residents of the State of Kansas is this Administration’s top priority;

WHEREAS, Kansas is facing a crisis—the pandemic and public health emergency of COVID-19—resulting in illness, quarantines, school closures, and temporary closure of businesses resulting in lost wages and financial hardship to Kansas citizens;

WHEREAS, the United States Department of Health and Human Services declared a public health emergency for COVID-19 beginning January 27, 2020, with now more than 105,000 cases of the illness and more than 1,700 deaths as a result of the illness across the United States;

WHEREAS, the World Health Organization declared a pandemic on March 11, 2020;

WHEREAS, a State of Disaster Emergency was proclaimed for the State of Kansas on March 12, 2020;

WHEREAS, on March 13, 2020, the President of the United States declared the ongoing COVID-19 a pandemic of sufficient severity and magnitude to warrant an emergency declaration for all states, tribes, territories, and the District of Columbia pursuant to Section 501 (b) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. §§ 5121-5207 (the “Stafford Act”);

WHEREAS, on March 13, 2020, the President of the United States pursuant to Sections 201 and 301 of the National Emergencies Act, 50 U.S.C. § 1601, et seq. and consistent with Section 1135 of the Social Security Act, as amended (42 U.S.C. § 1320b-5), declared a national emergency that the COVID-19 outbreak in the United States constitutes a national emergency beginning March 1, 2020;

WHEREAS, as of this date, there have been 202 reported positive cases of COVID-19 in Kansas spread among 31 counties;

WHEREAS, in order to mitigate the spread of COVID-19, health officials in several Kansas counties have issued differing “stay home” orders directing citizens to remain in their homes except to conduct essential activities;

WHEREAS, the continued spread of COVID-19 throughout Kansas and the potential for further spread in the days and weeks ahead threatens local health care systems with overload of hospital
beds, personal protective equipment, testing and treatment supplies, and other critical resources for responding to the COVID-19 pandemic;

WHEREAS, in order to create uniformity in the state of Kansas, a state-wide order is necessary;

WHEREAS, consistent exemptions for certain essential functions is critical to the ability of government entities and private enterprises to work together to slow the spread of COVID-19 and mitigate its effects;

WHEREAS, seeking shelter in our homes is shown to be the most effective way to reduce the spread of this infectious disease and Kansas residents will be most safe in their homes;

WHEREAS, where it becomes necessary for local health officials to limit citizens’ ability to leave their homes, it remains critical to the COVID-19 pandemic response that a uniform “stay home” order and framework for essential functions exists to secure the safety and protection of the civilian population; and

WHEREAS, in these challenging times this Administration will do whatever it can to avoid immediate dangers to the health, safety, and welfare of Kansans, including providing guidance and support for local authorities who are making difficult and important decisions to protect the health and safety of their populations, as well as certainty to the broader population that essential functions will not be interrupted.

NOW, THEREFORE, pursuant to the authority vested in me as Governor of the State of Kansas, including the authority granted me by K.S.A 48-924 and K.S.A 48-925, in order to slow the spread of COVID-19 I hereby direct and order the following:

1. To preserve the public health and safety for all Kansans, and to ensure the healthcare system is capable of serving all citizens in need, especially those at high risk and vulnerable to COVID-19, all individuals within the state of Kansas are directed to stay in their homes or residences unless performing an essential activity. An activity is essential if the purpose of the activity is one of the following:
   a. Obtaining food, medicine, and other household necessities;
   b. Performing, or going to or from work at a business or organization to perform, an essential function as identified in the Kansas Essential Function Framework (“KEFF”) as laid out in paragraph 9 below;
   c. Seeking medical care;
   d. Caring for children (including daycare or childcare centers), family members, or pets, or caring for a vulnerable person in another location;
   e. Engaging in an outdoor activity, provided individuals maintain a distance of six feet from one another and abide by the 10-person limitation on gathering size.
f. Nothing in this order or any other executive order, including Executive Order 20-14, prevents families from gathering privately.

2. Nothing in this order shall restrict, limit, or supersede the Secretary of Health and Environment’s authority to make isolation, quarantine, or other orders restricting movement as necessary to respond to escalating or worsening conditions in any local jurisdiction.

3. Nothing in this order shall prohibit the conduct of business, government, or other operations or activities through telework, telecommunications, or other work-from-home capabilities that allow compliance with the requirements of paragraph 1. Travel to and from work to pick up equipment or supplies needed for telework or other work-from-home capabilities is allowed so long as employees and employers follow appropriate safety protocols, including maintaining a six-foot distance between individuals and following other directives regarding social distancing, hygiene, and other efforts to slow the spread of COVID-19.

4. This order should be read in conjunction with previous executive orders responding to the COVID-19 pandemic. Any contrary provision in previous executive orders, including Executive Order 20-15 ("Establishing the Kansas Essential Functions Framework for COVID-19 response efforts"), is superseded by this order.

5. While this order is in effect it supersedes all local “stay home” or similar orders prohibiting citizens from leaving their homes in order to slow the spread of COVID-19 and no such order shall continue in force or effect. Any local “stay home” or similar orders currently in effect that expire after the date this order expires or is rescinded may resume in force and effect after this order expires or is rescinded. While this order is in effect no local jurisdiction shall issue or enforce any more or less restrictive “stay home” or similar orders. Local authorities retain any authority to issue or enforce isolation or quarantine orders.

6. KEFF is a framework for identifying and continuing essential functions that must remain operational to maintain critical services and infrastructure during the COVID-19 pandemic.

7. KEFF was developed with reference to United States Department of Homeland Security critical function guidelines established for pandemic and other disaster response efforts.

8. KEFF focuses on four functional areas: Connect, Distribute, Manage, and Supply. KEFF organizes each area into a taxonomy so that each function can be easily referenced.

9. The KEFF essential functions listed below are exempt from the prohibitions in this order, subject to the following provisions:

   a. No individual leaving their home in order perform an activity or function allowed under this order shall be required to carry or present any letter, identification card, or other paper proving that they are allowed to leave their home. Law enforcement officers enforcing this order should use their discretion and consider the totality of the circumstances as they determine appropriate enforcement action.
b. No prior approval is required for individuals or entities to perform essential functions listed in the KEFF below. Individuals or entities who are uncertain whether they perform functions exempted from the prohibitions of this order may email KEFF@ks.gov to determine whether their functions are deemed essential.

c. All individuals performing essential functions authorized by this order must—to the extent possible without significant disruption to essential functions—use telework capabilities to avoid meeting in person; and any essential functions being performed on-site or in-person must—to the extent possible without significant disruption to essential functions—follow appropriate safety protocols, including maintaining a six-foot distance between individuals and following other directives regarding social distancing, hygiene, and other efforts to slow the spread of COVID-19.

**KEFF 100 CONNECT**

1. Operate Core Information Technology Networks
2. Provide Cable Access Network Services
3. Provide Internet Based Content Information and Communication Services
4. Provide Internet Routing, Access, and Connection Services
   a. Cybersecurity & Infrastructure Security Agency
5. Provide Positioning, Navigation, and Timing Services
6. Provide Radio Broadcast Access Network Services (includes Traditional Television)
7. Provide Satellite Access Network Services
8. Provide Wireless Access Network Services
9. Provide Wireline Access Network Services

**KEFF 200 DISTRIBUTE**

1. Distribute Electricity
2. Maintain Supply Chains for Essential Functions and Critical Infrastructure (as defined by DHS)
3. Transmit Electricity
4. Transport Cargo and Passengers by Air
   a. Manufacture, distribute, sell, or maintain aircraft or aircraft parts
5. Transport Cargo and Passengers by Rail
   a. Manufacture, distribute, sell, or maintain trains or train parts

6. Transport Cargo and Passengers by Road
   a. Operate or maintain gas stations and associated convenience stores and restaurants (but only as allowed in KEFF 400.6.b)
   b. Deliver mail, packages, food, groceries, beverages, or other cargo (this applies to transportation by air, rail or vessel as well)
   c. Manufacture, distribute, sell, or maintain automobiles or automobile parts
   d. Transport farm equipment, supplies, seed, and personnel to farming operations

7. Transport Cargo and Passengers by Vessel
   a. Manufacture, distribute, sell, or maintain cargo or passenger vessels or parts for such vessels

8. Transport Materials by Pipeline

9. Transport Passengers by Mass Transit

KEFF 300 MANAGE

1. Conduct Elections

2. Operate Media Outlets

3. Develop and Maintain Public Works and Support Services for Essential Functions

4. Educate and Train Essential Functions Personnel

5. Enforce Law

6. Maintain Access to Medical Records

7. Manage Hazardous Materials and Waste

8. Manage Wastewater

9. Operate Government
   a. Perform government contracts
b. Operate public and private schools to the extent allowed by other executive orders, including Executive Order 20-07, and under direction of the State Board of Education, the State Department of Education, and Kansas Board of Regents.

c. Perform the essential operations of State, county, and municipal governments

d. Operate State Constitutional offices

10. Perform Cyber Incident Management Capabilities

11. Prepare for and Manage Emergencies

   a. Manage or operate planning, cleanup, or other emergency responses, including private entities.

12. Preserve Constitutional or Legal Rights

   a. Manufacture or sell firearms, firearm accessories, or ammunition

   b. Perform or attend religious or faith-based services or activities

   c. Perform legal services

13. Protect Sensitive Information

14. Provide and Maintain Critical Infrastructure

   a. Construct or repair roads

   b. Construct, maintain, or clean buildings

   c. Produce or distribute construction materials

   d. Maintain specialized manufacturing or industrial equipment

15. Provide Capital Markets and Investment Activities

   a. Perform accounting services

16. Provide Consumer and Commercial Banking Services

17. Provide Funding and Liquidity Services

18. Provide Identity Management and Associated Trust Support Services

19. Provide Insurance Services

20. Provide Medical Care and Services, Including Mortuary Services
a. Provide pharmaceutical services
b. Provide funeral or memorial services

21. Provide Payment, Clearing and Settlement Services

22. Provide Public Safety

23. Provide Wholesale Funding

24. Store Fuel and Maintain Reserves

25. Support Community Health and Mental Health Services
   a. Operate laundry services

KEFF 400 SUPPLY

1. Exploration and Extraction of Fuels

2. Fuel Refining and Processing Fuels
   a. Produce or deliver propane or natural gas

3. Generate Electricity

4. Manufacture Equipment Used for Essential Functions or Critical Infrastructure (as defined by DHS)

5. Produce and Provide Agricultural Products and Services
   a. Manufacture or maintain agricultural equipment
   b. Manufacture or distribute agricultural supplies such as seeds and chemicals
   c. Raise, process, or distribute poultry, livestock, or other animals for human consumption
   d. Prepare, till, plant, maintain, or harvest grains, fruits, or vegetables

6. Produce and Provide Human and Animal Food Products and Services
   a. Manufacture or process food or food products
   b. Prepare or serve meals for takeout or delivery
   c. Sell groceries, including alcoholic beverages (not for on-site consumption)

7. Produce Chemicals
8. Provide Metals and Materials

9. Provide Housing
   a. Operate or maintain rental property
   b. Operate or maintain student housing
   c. Operate or maintain long-term care or senior living facilities
   d. Construct, supply, clean, or maintain single family homes or other housing
   e. Provide real estate services
   f. Operate or maintain housing shelters or charities
   g. Operate or maintain animal shelters
   h. Operate or maintain hotels or motels

10. Provide Information Technology Products and Services

11. Provide Material and Operational Support to Defense

12. Research and Development

13. Supply Water

This document shall be filed with the Secretary of State as Executive Order No. 20-16. It shall become effective as of 12:01 a.m. on March 30, 2020 and remain in force until rescinded, until April 19, 2020, or until the statewide State of Disaster Emergency proclaimed on March 12, 2020, relating to COVID-19 expires, whichever is earlier. This order may be extended as circumstances dictate.
