

Today's SkyCast

is **GREEN**

which indicates **healthy air**

Help keep our air clean:

- Carpool, combine short car trips, use public transit, bike or walk to your destination.
- Don't top off your gas tank and refuel in the evening.
- Don't idle your car for more than 30 seconds.

Clear Thinking.
Clear Air.

This information is brought you by the Mid-America Regional Council's Air Quality program.

The SkyCast is the **daily air quality forecast** for Greater Kansas City. Find it at www.marc.org, via local media outlets, or by calling (913) 383-7557.
