

	<p>Access to Care</p> <ul style="list-style-type: none"> • Deb Whitman - Goal is by 2007 elementary schools will all conduct dental screenings in schools. • 9 schools, 9 hygienists set up to conduct screenings. • Health Partnership Clinic is taking on Hunter Grove School (for dental services). • New school participating in offering dental services, Oak Park-Carpenter; additional schools are being recruited. • Need more dentist or hygienists to volunteer. Some schools have to be turned away because of the lack of volunteers. <p>Mental Health/Substance Abuse</p> <ul style="list-style-type: none"> • Goals for this year: • Social Media/Media Campaign slated for 4th quarter of the grant. • Focus on City of Shawnee community events at pools, farmer's markets, scarecrow event, focused on Family Day and distribution of information. • Canvas Bags with messaging also went to food pantries and some were distributed through the WIC Garden. • Cafe Conversations will be continued.
<p>Recording Progress on Health Initiatives <i>Lynne Brown, IBossWell</i></p>	<ul style="list-style-type: none"> • Community Health Improvement Plan: What are people doing to work on initiatives? How important do you think it is to report to the community the work you are doing and the results of the work? • Groups are working on advancement of efforts but the reporting of the results needs to be advanced. Need to show the work being done and the results of the work on the community. • Hospitals are required to post their initiatives and work on their website, as well as their improvement plan. • School Districts are required by the state to submit reports which are posted online. • Mental Health has a web portal that they input reports on grant activities. • DHE posts meeting minutes, which contain updates on initiatives, on the website and can be viewed by the public. • IBossWell has worked with Shawnee Mission School District and DHE to pilot a way to tell our stories and report out to the community. • Is anyone interested in joining a task force to talk about the structure of the reporting system and willing to pilot a new program of reporting out to the community? Please respond to Barbara Mitchell if interested in participating.
<p>Current Community Health Assessment Update <i>Elizabeth Holzschuh, JCDHE</i></p>	<ul style="list-style-type: none"> • Conducted community health assessment surveys in Johnson County, following the CASPER model out of South Carolina. • Goal of conducting 600 surveys. Have completed 290 to date with the help of DHE and several community partners. Need to complete 80% of surveys in order for the surveys to be valid. • Had a good communications plan preceding the administration of the surveys, through mailings and media campaigns with newspapers and radio stations. • 20 minute surveys proved to be too long so it was trimmed down to 15 minutes which has received a better response. • People have been very generous of their time and have provided genuine, well thought out feedback. • Will do another big push in two weeks and will offer half day and full day options. Still in need of volunteers! Please sign up!
<p>2016 Meeting Dates</p>	<ul style="list-style-type: none"> • Will have data together to be presented early 2016. • Would like to meet on a monthly basis for about four months to come together as a community to decide on our initiatives for the following four years. Next meeting is Tuesday, January 26, 2016.

Updates/Sharing

- November 7th, Health Fair in deaf community.
- Getactiveks.org to register for Obesity Summit in Topeka.
- Mental Health First AidMHFA has upcoming class that you can still register for. Contact Jamie Katz.
- Piloting program that has a traveling psychologist available to non-SPED or IEP students at Olathe North and Santa Fe Trail schools. Currently there are no resources available for the average student.
