  6. Develop health improvement plans. |
### Discussion

- Do the priorities still seem like what we would like to do? Yes, they all fit the Surgeon General’s recommendations and are very relevant.
- There is a new program, “Mental Health First Aid”. It is a 12 hour program for early intervention offered to county employees for $25, and the public for $50.
- Access to Care is being worked on by several different groups. Is it possible to get updates from current groups instead of making it a focus for our group? Agreed.
- What comes next? Work groups will be formed to determine our next steps. (what needs to be done and how we will begin)
- Suggestion- Get any sub-groups that we would be inviting later, to be involved right from the start. (Ex) Church groups, representatives from the African American population, Hispanic population...

- A consultant will meet with the group in October to help with the process and how it will work.

### Work Groups

- Everyone was asked to sign up for a work group according to interest. The results are as follows.
