They Count on YOU to Get an Influenza Vaccine

When you get the flu, you expose your family, patients and coworkers to infection. Healthy adults may be able to infect others with the flu up to 1 day before they start having symptoms. And once sick, they can infect others for up to 5 days. That’s why it’s important for you to prevent the flu by getting your flu vaccine every year.

Protect yourself. Protect your patients. Get your flu vaccine.

For more information about influenza and the influenza vaccine, visit www.cdc.gov/flu or call 800-CDC-INFO (800-232-4636).
