About Johnson County

Located in the southwestern quadrant of the Kansas City Metropolitan Region, Johnson County, Kansas is a community of choice with a current population of more than 550,000, making it the most populated of the 105 counties in Kansas, but traditionally having the lowest mill levy in the state. Johnson County offers a vibrant quality of life including nationally recognized schools, libraries and parks where businesses and families choose to locate and call their home. For more information visit the county's website at www.jocogov.org.
