

Information on door locks, compiled by Safe Kids Johnson County

<p>KidCo Door Knob Lock</p>	<p>Side pinch system is easy for adults to use but deters children from leaving or entering rooms.</p>	
<p>KidCo Lever Lock</p>	<ul style="list-style-type: none"> -Easy for adults to use, locks one side of the door allowing easy access from the other side. -Deters children from leaving and entering rooms. -Can be used for indoor and outdoor purposes. For example: doors leading to the garage. -If the side of the door is being child proofed that has a lock directly above the handle, the product cannot be used there due to the mechanism setup. 	
<p>Door Guardian</p>	<p>The Door Guardian has been designed to effectively secure and childproof the exterior doors.</p>	
<p>Safety 1st No Drill Top of Door Lock</p>	<ul style="list-style-type: none"> -It clamps on without drilling. -Allows entry access from both sides of the door. It engages automatically when door opens and has a slam guard which prevents pinched fingers. -Easy for parents to operate. Place high on door so children can't reach it. -Green/Red locking indicator. Can disengage for periods of non-use. -For use at interior doors. 	
<p>Safety 1st Lever Handle Lock</p>	<ul style="list-style-type: none"> -Unlike other lever locks, you don't need to dismantle your door handle to install. -Push the button and twist the device to unlock. When unlocked, the latch rotates with the natural motion of the door lever. -Can be used on right or left facing handles, thanks to the rotating "C" ring design. - 	

	<p>SecureTech™ visual indicator provides added safety and peace of mind for parents. (When the latch is engaged, the gauge turns green; when the latch is unlocked, the gauge turns red.)</p>	
<p>HTH Resources Watchdog Latch</p>	<ul style="list-style-type: none"> -The latch works automatically after every use. -Watchdog Latch grabs the edge of most any type of hinged door and keeps it from opening further. -To open door from the inside or outside, simply move the flexible arm out of the way. -The device should be mounted high out of your child's reach on the door knob side. -It allows the door to open about 1-7/8" to 2-1/4" depending on door thickness. -It can be operated from either side of the door for easy entry or exit. -Operable with one hand. 	
<p>Prime Lime Door Flip Lock</p>	<ul style="list-style-type: none"> -Restrict access to closets or rooms with in-swinging doors with the Flip Lock. -Simply flip lock sideways to latch, and lift and flip back to open. Works on left handed or right handed doors. -Installs on door frame above door knob. -Place out of reach of your child. 	
<p>Mommy's Helper Door Knob Safety Cover</p>	<ul style="list-style-type: none"> -Easily snaps on and spins loosely when a child tries to turn it. Adults simply squeeze the 2 side tabs to grip the knob and open the door. -It is oversized so young hands have trouble gripping it. -Accessible keyhole door for keyed knobs. -Fits all standard door knobs.
