

# HALLOWEEN SAFETY

Halloween is one of the most anticipated nights of the year for kids, but Safe Kids recently discovered some scary statistics with a first-of-its kind study on Halloween safety.

Only **1/3** OF PARENTS

talk to their kids annually about Halloween, although 3/4 report having Halloween safety fears.

On average, **TWICE AS MANY CHILD PEDESTRIANS** are killed while walking on Halloween compared to other days of the year.

Only **18%** of parents use reflective tape on their children's Halloween costumes.

**12%**

of children five years of age or younger are permitted to trick-or-treat alone.

Talk with your goblins about Halloween safety, and how simple precautions can make it a fun and safe night for kids of all ages. For additional safety tips, please visit [SafeKids.org/Halloween](http://SafeKids.org/Halloween)

Children under 12 should trick-or-treat and **CROSS STREETS WITH AN ADULT**

**ALWAYS WALK ON SIDEWALKS OR PATHS**

if there are no sidewalks, walk facing traffic as far to the side as possible.

Cross the street at corners, **USING TRAFFIC SIGNALS**

and crosswalks. Parents should remind children to watch for cars that are turning or backing up.

**DRIVERS SHOULD SLOW DOWN**

and be especially alert in residential neighborhoods. Children are excited on Halloween and may move in unpredictable ways.
