5 New Federal Requirements:

- Traditional drop-side cribs cannot be made or sold; immobilizers and repair kits not allowed.
- Wood slats must be made of stronger woods to prevent breakage.
- Crib hardware must have anti-loosening devices to keep it from coming loose or falling off.
- Mattress supports must be more durable.
- Safety testing must be more rigorous.

Beginning June 28, 2011 all cribs sold in the United States must meet new federal requirements for overall crib safety.

SafeSleep is a campaign of the U.S. Consumer Product Safety Commission.
