## INTRODUCTION

---

### Purpose

The purpose of the *ESF-13 Public Safety and Security Annex* is to establish how Public Safety and Security activities will be coordinated to meet the needs generated by disasters affecting Johnson County.

### Scope

This annex identifies the key policies, concepts of operations, roles and responsibilities, and capabilities associated with *ESF-13 Public Safety and Security* in Johnson County. Specific operating procedures and protocols are addressed in documents maintained by the participating organizations. Some of these activities may include:

1. Provision of security in support of response operations including:
  - a. Response operations
  - b. Emergency shelters
  - c. Logistical staging areas
  - d. Distribution/dispensing sites (Incl. Strategic National Stockpile)
  - e. Temporary morgues
  - f. Other critical facilities, functions, and/or assets
2. Evacuation and re-entry support
3. Law enforcement public information and risk communication

4. Support correctional facilities (jail, prison, or other place of incarceration)
5. Ensure the safety and well-being of responders.

*ESF-13 Public Safety and Security* applies to all individuals and organizations and the full range of Public Safety and Security services that may be required to support disaster response and recovery operations in Johnson County. Additional first responder functions are addressed in *ESF-4 Firefighting Annex*, and the *ESF-9 Search and Rescue Annex*.

## **SITUATION & ASSUMPTIONS**

---

In addition to the “Situation and Assumptions” section in the Basic Plan, the Concept of Operations for ESF-13 is based on the following:

### **Situation**

1. Johnson County has 17 law enforcement agencies including the Sheriff’s Office, 15 municipal Police Departments, and the Johnson County Park Police. Collectively, there are nearly 1500 personnel in law enforcement in the County; the vast majority being full-time employees. More than 475 of those personnel are employed with the Sheriff’s Office.
  - a. Johnson County Sheriff’s Office
  - b. Johnson County Park Police
  - c. Bonner Springs Police Dept.
  - d. Fairway Police Dept.
  - e. Gardner Police Dept.
  - f. Lake Quivira Police Dept.
  - g. Leawood Police Dept.
  - h. Lenexa Police Dept.
  - i. Merriam Police Dept.
  - j. Mission Police Dept.
  - k. Olathe Police Dept.
  - l. Overland Park Police Dept.
  - m. Prairie Village Police Dept.
  - n. Roeland Park Police Dept.
  - o. Shawnee Police Dept.
  - p. Spring Hill Police Dept.
  - q. Westwood Police Dept.
2. There are six law enforcement public safety answering points (PSAPs) dispatch centers in Johnson County. The Sheriff’s Dispatch Center is responsible for dispatching law enforcement services for the unincorporated areas of Johnson County and the cities of DeSoto, Edgerton, Fairway, Gardner, Lake Quivira, Merriam, Mission, Mission Woods, Olathe, Roeland Park, Spring Hill, Westwood, Westwood Hills, as well as the Johnson County Park Police. The cities of Leawood, Lenexa, Overland Park, Prairie Village (covering Mission Hills), and Shawnee operate their

own law enforcement dispatch centers for their respective service areas. (See also *ESF-2 Communications Annex*).

3. Kansas has two fusion centers: The Kansas Threat Integration Center (KSTIC), a joint operation of the Kansas Bureau of Investigation, the Kansas Highway Patrol and the Kansas National Guard -- focuses on counterterrorism. The Kansas City Regional Terrorism Early Warning Group has an Interagency Analysis Center in Kansas City, Mo., that is responsible for Leavenworth, Wyandotte, Johnson and Miami counties. Fusion centers compile, analyze, and disseminate criminal, homeland security, and terrorist information and intelligence, as well as information regarding public safety, law enforcement, fire, public health, social services, public works, etc. This intelligence and information is both strategic (i.e. is designed to provide guidance on general trends) as well as tactical (i.e. is intended for a specific event) and is collected on an ongoing basis.
4. The Kansas City Joint Terrorism Task Force (JTTF) is also called the Heart of America Joint Terrorism Task Force (HOA JTTF); a Kansas JTTF annex is located in Wichita. The U.S. attorney chairs an Anti-Terrorism Advisory Council (ATAC) in Kansas City.
5. The National Incident Management System (NIMS) Incident Command System (ICS) is utilized throughout the county for coordinating activities among local fire organizations and other first responders. All jurisdictional fire department personnel have completed the appropriate NIMS training for their level of responsibility. In addition, all responding law enforcement personnel are trained to at least the *first responder awareness level* in accordance with 29 CFR 1910.120 OSHA Hazardous Waste Operations and Emergency Response.
6. ESF-13 Public Safety and Security includes the coordination required for prevention, preparedness, response and recovery specific to terrorism and/or weapons of mass destruction incidents. The Code of Federal Regulations defines terrorism as "...the unlawful use of force and violence against persons or property to intimidate or coerce a government, the civilian population, or any segment thereof, in furtherance of political or social objectives." (28 C.F.R. Section 0.85). Acts of terrorism can come in many forms including the use of Weapons of Mass Destruction (WMD) involving Chemical, Biological, Radiological, Nuclear, or Explosive (CBRNE) weapons. As noted in the Basic Plan of the County Emergency Operations Plan, as a highly visible suburban/urban county in a major metropolitan area, the threat of terrorism is a concern for Johnson County. There are facilities, systems, special events, and population groups within Johnson County that could be considered potential targets for terrorist attacks.

## **Assumptions**

1. Law enforcement agencies will work within their existing city, county, and regional plans and partnership agreements to meet the law enforcement needs of disasters.
2. Some disasters may require supplemental and/or specialized Public Safety and Security support.
3. In the event of a state or federally declared disaster, the Governor can provide National Guard personnel and equipment to support local Public Safety and Security operations.

## **CONCEPT OF OPERATIONS**

---

1. The Johnson County Sheriff's Office is responsible for countywide coordinating Public Safety and Security response activities during multi-jurisdictional disasters or within a single jurisdiction when necessary or upon request. Local police chiefs retain responsibility for Public Safety and Security activities within their respective jurisdictions.
2. When Public Safety and Security needs cannot be met through existing plans and partnerships, requests for assistance will be forwarded to and managed by the Johnson County Sheriff's Office or ESF-13 Public Safety and Security when activated.
3. The mission of the County ESF-13 Public Safety and Security Team is to ensure the provision of Public Safety and Security support required to meet the needs generated by disasters affecting Johnson County. When the ESF-13 Public Safety and Security Team is activated in the Johnson County Emergency Operations Center (EOC), the ESF-13 Team will orchestrate the countywide coordination required to fulfill the mission of ESF-13. These activities will include:
  - a. Establish and maintain operational awareness of Public Safety and Security through direct communications links with Public Safety and Security units in the field and/or their appropriate coordinating entities (DOCs, City EOCs, PSAPs, liaisons, etc.)
  - b. Conduct Public Safety and Security disaster impact and needs assessments, prioritize ESF-13 operational objectives in alignment with the EOC Incident Support Plan, and coordinate ESF-13 county-wide response activities;
  - c. Collect and analyze information relevant to ESF-13 and report in WebEOC and EOC documents including EOC Incident Support Plans and Situational Reports;
  - d. Receive, manage, & track resource requests for ESF-13;
  - e. Ensure full coordination of activities with other groups within the EOC to assist in the development and maintenance of a common operating picture.

4. Regardless of its origin, when threat information is received by any entity in Johnson County, it must be communicated to the appropriate jurisdictional law enforcement agency so that they may be warned of the potential threat. Once threat information is received by law enforcement, it is that agency's responsibility to assess the information and act accordingly. As illustrated in the POLICIES, AUTHORITIES, AND REFERENCES section of this plan, the process flow titled "Johnson County Threat Information Notification" reflects how threat information should be disseminated to appropriate entities based on the assessed level of threat. Upon notification, each organization is responsible for notifying agencies on the state, regional, and national level based on each agency's existing notification procedures. Due to the sensitive nature of the information, the law enforcement community may not be able to give specific details about a possible event without compromising intelligence operations. Much reflection and judgment must be exercised in weighing the consequences of compromise versus the possible threat to citizens with warning other agencies or the public.
5. Upon notification that a terrorist incident (or suspected terrorist Incident) has occurred, the Johnson County Emergency Communications Center (ECC) will be notified and the appropriate responders will be dispatched. Additionally, the ECC will notify appropriate organizations of the event. Upon notification, each organization is responsible for notifying agencies on the state, regional, and national level based on each agency's existing notification procedures. The process flow titled "Johnson County Terrorist Incident Notification" in the POLICIES, AUTHORITIES, AND REFERENCES section illustrates how notification should be made throughout the county in a suspected or actual terrorist event.
6. During response, ESF-13 Team will evaluate and coordinate with the Johnson County Sheriff's Office and local law enforcement to provide security in disaster operations locations such as Staging Areas, Shelters and Feeding Sites, Morgues, Hospitals, Strategic National Stockpile sites, Field Command Posts, etc. This security function may include locking down locations and managing access control in and out of the area. It may also require specialized knowledge or safety gear depending on the type of environment, such as terrorism situations or HAZMAT events.
7. In the event that National Guard resources are deployed to Johnson County to augment law enforcement and security, the ESF-13 Public Safety and Security Team will coordinate and manage the use of those resources.
8. Local law enforcement will coordinate its support in incidents on state or federal property as local law enforcement has limited jurisdiction at these incidents.
9. Public Safety and Security agencies have the major responsibility for providing traffic control. The KHP will assist local Public Safety and Security if requested. Rerouting of traffic on state or interstate highways will be in accordance with the KDOT/ MoDOT Kansas City Area Incident Management Program Manual. Public

works departments (city & county) will provide materials for closing streets and signage for rerouting traffic.

10. ESF-13 Public Safety and Security will coordinate with ESF-4 Firefighting, ESF-1 Transportation, and ESF-3 Public Works and Engineering (debris removal), and other ESFs as needed to designate primary and alternate transportation routes, and evaluate and ensure access requirements to meet response needs.
11. Evacuations may be initiated by local officials in situations where evacuation is critical to the safety & health of the population.
  - a. On-scene Incident Commanders (IC) are responsible for making evacuation decisions related to a specific incident, especially when the timeliness of such decisions is a matter of immediate life safety. In the case of a more widespread disaster, or when the decision to evacuate is not a matter of immediate life safety, such decisions will normally be made by or in coordination with senior local government officials such as the respective police chief, fire chief, emergency manager, city/county manager, mayor, and/or the Chairman of the Board of County Commissioners (BOCC).
  - b. In general, evacuation criteria will take into account variables such as the specific hazard; immediacy, seriousness & expected duration of the threat; vulnerable populations at risk; and adequacy/availability of evacuation routes and resources.
  - c. Chief executives of jurisdictions being evacuated should be advised as soon as possible, according to established protocols. The IC and/or cities will keep Johnson County Emergency Management (JCEM) informed of evacuation situations with the potential to require countywide coordination or County EOC activation. Upon becoming notified, JCEM will provide necessary support and activate the County EOC as required. When activated ESF-1, ESF-4, ESF-9, ESF-10, ESF-15 and ESF-13 will coordinate countywide evacuation activities.
  - d. The entity issuing an evacuation has the primary responsibility for notifying and informing the public of the evacuation. JCEM and/or the County EOC (when activated) can assist in information dissemination when needed.
  - e. When the disaster situation has stabilized and it is again safe to return to a previously evacuated area, the authorization to allow reentry will be given by the director of the county or city EOC, the IC, or as otherwise directed.
12. Local law enforcement may provide mobile units to assist with warning the public. (See also *ESF-15 Public Information Annex*).

13. Local Public Safety and Security may be asked to assist with damage assessment activities after a disaster.
14. Law enforcement agencies have a number of specialized capabilities for search & rescue, explosive ordinance disposal, tactical response, etc. (See also ESF-4 and ESF-9: Fire Suppression / Search & Rescue) The following are types of specialized capabilities related to law enforcement, a full resource list is available through the EOC:
  - f. Patrol Dogs
  - g. Aerial Search/Surveillance
  - h. Underwater Rescue
  - i. Explosive Ordnance Disposal (EOD)
  - j. Tactical Response Teams
  - k. Tactical Medical Team
  - l. Investigative Resources
15. Most resource requirements beyond the capability of local law enforcement agencies can be supplied through mutual aid using existing state statutes via verbal request.
16. All individuals/organizations involved in disaster response should collect and record information on the utilization of labor, materials, equipment, and disaster-related costs.
