RE: Information Meeting on Potential Sewer District
Mill Creek No. 15, Lateral Sewer District No. 6

Dear Property Owner:

Because multiple property owners within this area have expressed an interest in sanitary sewers, Johnson County Wastewater (JCW) has scheduled an information meeting with property owners who might be affected by future sanitary sewer service availability, to determine the degree of interest in sanitary sewer service in this area. JCW has performed an engineering planning study of an area which may include land under your ownership. The study area boundary is indicated on the attached map.

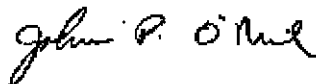

You are invited to an information meeting to discuss the costs and procedures involved in providing sanitary sewers within the study area. The meeting will be held:

Thursday, September 17, 2015, 6:30 p.m.
Sunset Drive Office Building, Room 1070/1075
11811 South Sunset Drive
Olathe, Kansas

Johnson County complies with the Americans with Disabilities Act; if you have a disability and require special arrangements, please call (913) 715-8555.

This is an information meeting only; **no sewer district has been authorized**. Your comments and questions are of utmost importance so that we may better understand the needs in this area.

Sincerely,

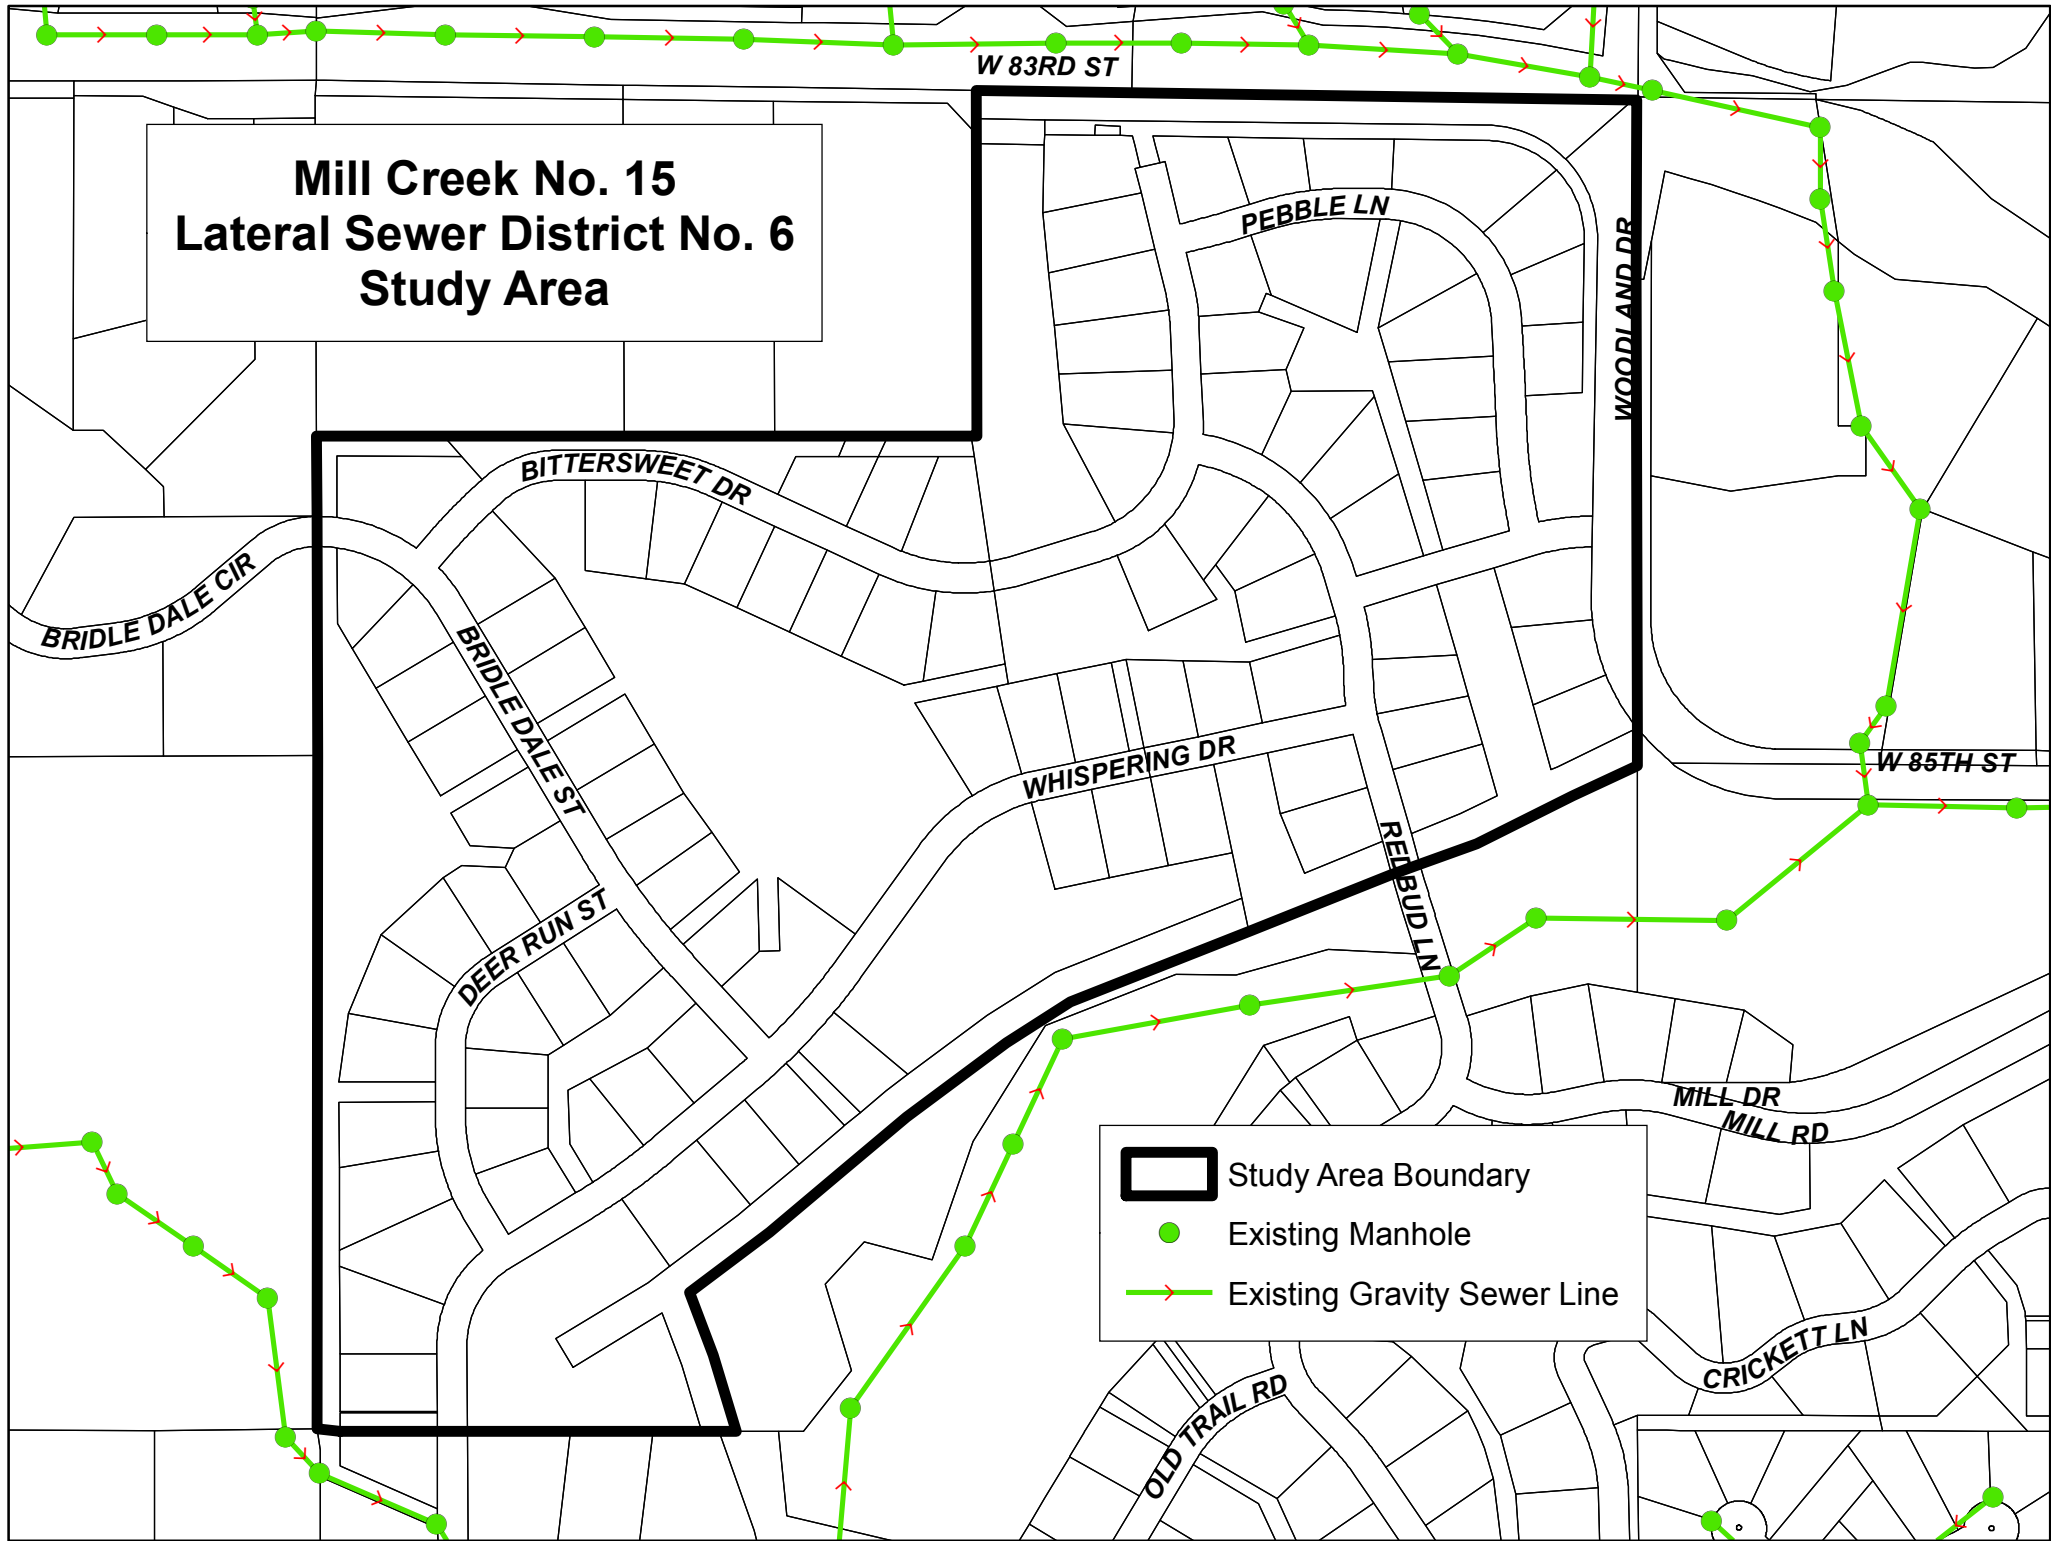

John P. O'Neil
General Manager
