Re: Update regarding agritourism regulations and Planning staff activities.

Over the course of November, December and January, Planning and Legal staff refined proposed amendments to the Zoning Regulations in order to clarify the County's regulation of agritourism activities. These proposed agritourism amendments are under review by Legal Department staff, and it is not clear when such work will be completed.

Going forward, staff would like to take this opportunity to address some minor clarifications of the Zoning Regulations in order to make administration more efficient. Staff is compiling a list of proposed updates and edits to bring to the Planning Commission for discussion.

It is the intent of staff to submit either agritourism regulations or minor regulation fixes to the Planning Commission for review at the March meeting.
