

# 2020 Preventive Care Benefits

## Infant and Child Wellness Matters

The following preventive care visits and immunizations are 100 percent covered by your health insurance if rendered by an in-network provider. **Services must be billed with a primary diagnosis of “Preventive Care” to be covered at 100 percent according to the County’s plans.** Note: The BlueSaver QHDHP preventive list has been expanded due to recent IRS guidelines. The list now includes certain medications targeted to manage chronic conditions. Please see the MedTrakRx preventive drugs list for more details.

### Preventive Care for Infants and Children

Dental caries/oral fluoride supplementation (infants up to age 5)	Major depressive disorder screening (adolescents)
Gonorrhea prophylactic medication (all newborns)	Obesity screening and referral for intensive counseling and behavioral interventions for children (ages 6-18)
Hearing loss screening, audiological assessment, follow-up, and initial amplification (all newborns up to 12 months)	Phenylketonuria (PKU) screening (newborns)
Hemoglobinopathies/sickle cell disease screening (all newborns)	Skin cancer behavioral counseling (ages 10-24)
Hypothyroidism screening (newborns)	Tobacco use interventions for children and adolescents
Iron supplementation (6-12 months at increased risk)	Visual acuity screening (children ages 3-5)
Lead testing (12 and 24 months)	Well-child office visits (annual exam)

### Immunizations for Infants and Children

Diphtheria, tetanus, pertussis (DTaP)	Influenza virus
Haemophilus influenzae type B (Hib) conjugate	Measles, mumps, and rubella
Hepatitis A	Meningococcal conjugate, quadrivalent (MCV4)
Hepatitis B	Pneumococcal
Human papillomavirus (HPV) (ages 9-26)	Rotavirus
Inactivated poliovirus (IPV)	Varicella (VAR)

Consult your primary care physician to determine which services are appropriate considering your age, gender, and personal health history.

Please review the Benefit Summary for out-of-network coverage. All services received from an out-of-network provider are subject to the out-of-network deductible and coinsurance, except for childhood immunizations, which are paid at 100 percent.
