## Automated Information Mapping Systems

AIMS provides a flexible mapping system that supplies accurate map information designed to meet the current needs of your organization.

AIMS staff is devoted to advancing the use of Geographic Information Systems into the daily practice of Johnson County community and public agencies and private business. AIMS highly skilled staff can help you maximize your business and human resources.

From providing you with current digital data, to training your staff to use GIS software or on-line applications, AIMS can help integrate GIS into your everyday business practice.

The mission of AIMS is to provide open, efficient, and secure access to spatial data at a reasonable cost to aid our stakeholders in making more efficient and effective decisions. Ultimately, the decisions add value to the quality of life that our stakeholders have come to expect.

AIMS is here to serve you. For more information visit the AIMS website at: <http://aimu.jocogov.org>
