Re: Registered Voter/Citizen Online Petition Submission Comments on Utility-Scale Solar

Attached is a packet that was submitted by a group known as Citizens for Responsible Solar. The packet includes "Registered Voter/Citizen Online Petition Submission Comments on Utility-Scale Solar". Individual packets were submitted for distribution to the Planning Commission and Board of County Commissioners. This information will be considered part of the public record for the proposed amendments to the Comprehensive Plan and Zoning Regulations regarding utility-scale solar regulations.

The Planning Commission completed their recommendations for the proposed solar regulations at the December 14, 2021 meeting and this item is not on the agenda for the February 22, 2022 meeting.

There is a Committee of the Whole meeting scheduled with the BOCC on February 24, 2022 to review the proposed regulations. A public hearing will also be scheduled for a regular session of the BOCC at a later date.
