Introductions & Announcements/Affiliate Updates and Openings
There were no updates noted.

Guest Presenter – Aetna Better Health of Kansas will be one of the MCO options during open enrollment period beginning October 1st with services beginning January 1st, 2019. Josh Boynton from Aetna talked about the transition, answered questions and listened to provider concerns. Individuals currently assigned to Amerigroup will receive notification in September that they will automatically transfer to Aetna but may select another MCO during open enrollment. Individuals with Sunflower and United may also choose Aetna during open enrollment. In October, a packet of information will be sent to all Amerigroup recipients and affiliates about Aetna and value-added services. Individuals looking for information should search for Aenta Better Health of Kansas on their Aetna website. There will be an I/DD liaison to help with issues and provider relations. Josh stressed that Aetna’s goal was to be a business partnership with affiliates who provide the actual service. He can be reached at 407-754-6680 or boyntonj1@aetna.com

CDDO Updates
The Bethesda ICF-IID closure/transitions is complete. The CDDO thanks everyone who was involved with the transition and especially the newly chosen providers of TCM, Residential and Day services. We are grateful that so many residents of the ICF-IID were able to transition to other providers in Johnson County or closer to family.

Kansas Focus is closing on September 15 and the CDDO is working on the transition. They are also liquidating office furniture – please contact Janet Woodward for more information at (913) 341-5900 or janet@kansasfocus.org.

The July 31 case manager training was attended by 33 persons and received very positive comments. We feel confident that the content, flow and presenters are on target and will look at shortening the session by 30 minutes. These trainings will continue every six months. The next date is January 23, 2019. A flyer will be sent with the minutes. Additional training suggestions were behavior support planning, SMART goals, billing/TCM specific guidelines and client obligation vs. spenddown. Additional trainings are in the works:
- Sheri and Seth are working on a Behavior Support Plan/SMART Goals training. The date will be sometime in November.
Russell Nittler will be the next guest speaker at the Johnson County Affiliate September 13 meeting. He will discuss client obligation and spenddown.

Forms have now been added to the CDDO website. The resources section will be revised next. http://www.jocogov.org/dept/cddo/home

Quality Assurance Committee Members are still needed. Contact Anna McNamara if you are interested. Anna.mcnamara@jocogov.org.

A Dementia Survey was emailed out August 7. Separate trainings are planned for providers and families on understanding and supporting the changing needs of individuals with IDD experience dementia related illnesses.

Annie Russell talked about some BASIS team updates that included, Round Table meetings (nothing to report from last meeting) and the CDDO shadowing activities. The BASIS team is shadowing meetings with other CDDO’s to gather input of their process. Other CDDO’s may shadow the Johnson County Team also. The TCM will be notified if someone else will be attending a meeting. The individual always has the option to decline.

There is a BASIS training scheduled for 1-3 pm on September 18th at the Elmore Center. – All affiliates invited to attend. A flyer will be sent with the minutes.

Shelly shared a handout with information on both youth and adult behavioral resources. It will be sent with the minutes.

State Updates
Person Centered Support Plan policy/template training will be for the CDDO at the August 16th KDADS/CDDO Quarterly Business Meeting.

There are many questions/concerns about the new KanCare implementation and conflict free case management. There has been no direction from the State or MCO’s regarding MCO’s no longer authorizing TCM services to individuals who also receive day/residential services from the same agency. The impact of this change could potentially affect 330 individuals in Johnson County and 4 agencies.

Provider education meetings about the KanCare 2019 implementation are scheduled for Wednesday, September 5, 2018, 1-3 p.m. at Kansas State University Olathe, 22201 West Innovation Drive, Olathe.

The Bob Bethel KanCare Oversight Committee is scheduled for August 20-21 in Topeka.

Upcoming Events
The KDADS/CDDO Quarterly Business Meeting will be hosted at the Elmore Center or attend in person at KDADS. 9:30-12:00 PM on 8.16.18. RVSP to Gail Lauri at gail.lauri@jocogov.org, if you would like to attend at the Elmore Center.

The Council of Community Members Fall Resource Fair for Individuals/Families is Oct 4th at the Arts & Heritage Center. Call for vendors due back to Sheri Kendall by 8.15.18.
Feedback
Lorraine Dold, Another Day, shared that beginning in 2019, FMS providers will no longer have a contract with the State of Kansas, only the individual MCO’s. There was an issue of the FMS provider needing to sign the PCSP.

  5121 Raytown Rd. Kansas City, MO

Voluntary Hospitalization: For people that make the choice to enter into treatment in a hospital.

Involuntary Hospitalization: Highest level of care - At times, people sometimes lack insight or are unable to make informed decisions about their mental health treatment when they are a threat to self or others. There is a hearing in front of a judge within the first few days at the hospital. The judge makes the final decision on if there is enough evidence that the individual needs to be hospitalized and they remain in the hospital.

Local Options Include: Osawatomie, KVC, KU Medical Center

Outpatient Services

What it means: Attending treatment appointments on a regular basis while remaining in your own home and providing medication management, therapy, case management, groups. These services are based on the needs of each individual.

Intensive Outpatient: Short-term treatment for intensive services in the community, approx. 4-6 weeks.

Options for Services:
- JCMHC, private practices, etc.
**Contact your insurance company for options under your individual plan.**
